

# city communications integrated

## Voice and Data Consulting

Providing voice and data consulting services to business organizations throughout the United States. With over fifty years of combined industry experience, we are able to help you reduce costs, save time, and maximize value.

## Free Telcommunications Audits

City Communications recommends reviewing your local, long distance and Internet bills at least every twelve months. We take the hassle out of this process by providing a comprehensive and detailed audit of your services. If you like the results, we simply ask that you place your business with us.

## Same great rates and promotions

With master agency agreements with over 15 different carriers across the country, City can offer you the exact same pricing and promotions that are available from each of the carriers directly. There is no cost to you for using our services. In addition to all of the technical support and customer service centers provided by the carriers, you will receive a second-level of support for escalations from one of our account managers.

## Long-term relationships

Over the course of business, you will find that you periodically make changes to your communications services to take advantages of new technology and promotions. City Communications is committed to building long-term relationships with our customers, which is why we are there to help you through those transitions. We constantly strive to find the best services at the lowest prices for your business.
